

Physicians for A HEALTHY MOTHER & BABY

You'll get exceptional, truly personalized obstetrical care from Physicians for Women. Our team of doctors has brought hundreds of babies into the world over the years, for women with normal and high-risk pregnancies.

When you're expecting, you can relax knowing that a Physicians for Women doctor will be there for you every step of the way to ensure a healthy pregnancy and successful delivery. You'll receive excellent pre-natal education to help you take care of yourself during pregnancy and so you'll be prepared for labor and delivery.

To ensure a healthy delivery, you'll find:

- ☞ *Convenient onsite ultrasound to closely monitor your pregnancy.*
- ☞ *Onsite breast-feeding and childbirth classes to inform and educate moms-to-be on a wide range of pregnancy topics.*
- ☞ *Onsite fetal non-stress testing.*
- ☞ *First- and second-trimester genetic screenings.*
- ☞ *Access to alternative birthing centers.*
- ☞ *Initial consultation and evaluation of infertility for couples having difficulty conceiving.*

Pregnancy can create anxiety and sometimes be stressful, especially if you have complications. That's why we take a team approach to your care and do all we can to put you at ease and earn your trust. Even if you've had a difficult pregnancy in the past, you'll feel confident with Physicians for Women.
